

Russian-African Network University

Consortium «Russian-African Network University» is aimed at voluntary equal partnership between Russian and African universities and research organizations in the fields of higher education, life-long learning and researches.

RAFU mission: to create a common educational space that provides equal access to the educational resources for all RAFU Participants from different countries.

RAFU objectives:

- implementation of joint educational programs
- creation of new forms of interuniversity cooperation
- development of RAFU students' and faculties' academic mobility
- promotion of intercultural dialogue among students and countries
- preservation, development and mutual enrichment of cultures, languages, historical and national traditions

RAFU Participants :

- **80** Russian educational institutions of higher education
- **5** Russian scientific institutes
- **40** African universities
- **3** organizations

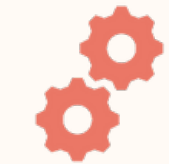

Opportunities for RAFU Participants within the Consortium

Development of cooperation between Russian and foreign RAFU Participants, industrial partners on a mutually beneficial basis

Internationalization of higher, professional and additional education system

Interaction with industrial partners in obtaining practice-oriented education, including within the framework of targeted training

Development of RAFU students' and faculties' academic mobility

Obtaining, based on the results of training, diplomas of graduation from universities - participants in the program, certificates of advanced training or diplomas of professional retraining

Open access to educational resources of RAFU participants
